

ADMINISTRATOR'S REPORT

10-19-15 through 11-4-15

Waste Water Treatment Plant

- Continued with daily testing and other normal maintenance.
- The #1 Vaughn pump will have to be replaced. The replacement cost is about \$14K. The old pump will be torn down by our staff and rebuilt and kept on hand as a spare.
- The sludge tanks are being cleaned and prepared for the winter months. The north tank is complete and we will have to wait on the #1 pump in order to drain and clean the south tank.

Sanitary Sewer Collection System

- Monthly service to the system is being done as time permits.
- The sewer reline project is being advertised and bids are due on Tuesday November 24, 2015 at 11:00 AM.
- The Vector / Jetter or equal is out for bid and bids are due November 12, 2015 at 11:00 AM.

Water System & Plant

- We continue to perform normal maintenance at the plant.
- Other than the normal meter and curb box repairs as weather permits.
- No major problems at the water plant.
- I will be getting quotes to either repaint or touch up the North Main Water Tower.
- NO changes in above for now.

Other issues

Recreation / Pool

- We are still trying to find the leak in the pool. We have not been successful as of yet. It may be necessary to dig up the return line to see if there is a split in one of the lines back to the pool. This is not going to be an easy fix.

- No Change at this point. However we think the problem could be in the return system which is under the deck and about 4ø deep.

Street / Storm Sewer

- Cold patching of the pot holes around town over the past two weeks continues. If you see any holes in the streets that we don't get filled, please notify me so they can be addressed.
- The CSX project and ditch cleaning should wrap up over the next week to 10 days.
- Leaf pick up continues daily. Weather permitting this will continue through Thanksgiving and into December weather permitting.
- We have been able to chip most of the brush on Village property bordering the soccer fields. We will continue this effort and try to get the area so we can keep it mowed and work towards building the BB and SB fields in the future.

Development

- Our CDBG application that I submitted to the County has been approved. This means that the restroom at the new playground will be built as soon as we receive the info from the County. Probably in the spring of 2016.
- **Still Pending** / The Nature Works and Land and Water Grants have been delivered to ODNR it will be late summer before we know the status. These are for the shelter House and Playground equipment. (expect to hear in October)
