

Boil Advisory – Precautionary

November 28, 2023

Due to:

A water main leak at W. High Street.

The Mt. Gilead Village Public Water System is advising all affected people receiving this notice.

➤ Addresses affected are the following:

➤ 359, 364, 371, 377, 383, 391, 400, 420 & 504 W. High Street

That until further notice, all consumers vigorously boil, for at least 2 (two) minutes, any water used for drinking (including water used to make ice), cooking, oral and or personal hygiene.

You might notice discolored water once the water is restored. Two common types are yellowish orange water indicating Iron, and the second appearing milky looking is air in the water. We will flush our water mains to help with this but, you can do the same with your lines as well. It is recommended to remove your aerators from your faucets to do this.

The Boil Advisory will remain in effect until ALL samples have been pulled, tested and results are Negative (Absence).

The Mt. Gilead Water Department has no evidence at this time that the water system is contaminated. The possibility does exist however that the water system is contaminated and is issuing this advisory as a precaution.

Boil Advisory updates can be reached at the following places:

- 1. Mt. Gilead Water Treatment Plant at 419-946-1871**
- 2. www.mountgilead.net - website**
- 3. Village of Mount Gilead, Ohio - Facebook page**
